Generaal De Wittelaan L11 A3
2800 Mechelen, Belgium
(Address of principal executive office)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.
Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

The information contained in this Report on Form 6-K, including Exhibit 99.1, except for the quote of Mr. Mark A. Steedman and the quote of Dr. Piet Wigerinck contained in Exhibit 99.1, is hereby incorporated by reference into the Company's Registration Statements on Forms F-3 (File No. 333-211765) and S-8 (File Nos. 333-204567, 333-208697, 333-211834, 333-215783, 333-218160, and 333-225263).

On January 4, 2019, the Registrant issued a press release, a copy of which is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

(c) [Exhibit 99.1](#). Press release dated January 4, 2019

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Fibrocor and Galapagos sign partnership in fibrosis

Mechelen, Belgium; 4 January 2019, 22.01 CET - Fibrocor Therapeutics L.P. (Fibrocor), a privately held Canadian company, and Galapagos NV (Euronext & NASDAQ: GLPG) announced a global partnership focused on a novel target for idiopathic pulmonary fibrosis (IPF) and other indications.

Fibrocor specializes in the development of tissue-specific therapeutics to treat the underlying cause of fibrotic diseases of the kidney and other organs. The collaboration announced today concerns a small molecule inhibitor program, currently in the lead optimization stage of development for the treatment of fibrotic diseases of the lung and other organs, the target of which is undisclosed. In exchange for global commercialization rights to Galapagos, Fibrocor will receive an upfront payment, and potentially is eligible for further milestone and royalty payments. Galapagos will be responsible for all further development of the program.

"This collaboration validates the fibrosis drug development expertise of Fibrocor," says Mark A. Steedman, President and CEO of Fibrocor. "I take my hat off to Dr. Richard Gilbert and the scientific team, including Evotec GmbH, our CRO¹ partner, for establishing a compelling data package that ultimately attracted Galapagos, a world-renowned biotech company with a key franchise in fibrosis. We feel this is the beginning of a great relationship and look forward to working with Galapagos to the benefit of fibrosis sufferers everywhere."

"The collaboration with Fibrocor announced today is an excellent strategic fit for Galapagos, as we continue to expand our franchise in IPF, and more broadly, in fibrosis," says Dr. Piet Wigerinck, Chief Scientific Officer at Galapagos. "We are enthusiastic about the drug discovery approach at Fibrocor, and look forward to collaborating with the team to address the large unmet medical need in fibrosis."

About Fibrocor

Spun out of St. Michael's Hospital and Sinai Health Systems in Toronto in early 2017, and seed funded by MaRS Innovation, Fibrocor Therapeutics L.P. represents a new paradigm in drug discovery research as it marries a state of the art genomics platform (developed by Dr. Jeff Wrana) to a kidney biobank (led by Dr. Darren Yuen), ultimately uncovering underlying genetic factors associated with specific clinical populations, and using longitudinal data to uncover rapid progressors of the disease.

MaRS Innovation is a leading provider of commercialization services, early-stage funding, and deal-brokering with industry and private investors. As a member-based organization made up of 15 Member institutions, MaRS Innovation's mandate is to drive the commercialization of their most promising research breakthroughs. MaRS Innovation's portfolio consists of early-stage assets and companies, and we leverage our deep expertise and experience to mature this portfolio via important global and strategic partnerships. With an active portfolio of more than 40 companies which have raised in excess of \$250M from global investors, and with the creation of more than 400 direct jobs, MaRS Innovation is truly a leader in the commercialization field. For more information please visit www.marsinnovation.com and follow us on Twitter @marsinnovation.

About Galapagos

Galapagos (Euronext & NASDAQ: GLPG) discovers and develops small molecule medicines with novel modes of action, three of which show promising patient results and are currently in late-stage development in multiple diseases. Our pipeline comprises Phase 3 through to discovery programs in inflammation, fibrosis, osteoarthritis and other indications. Our ambition is to become a leading global biopharmaceutical company focused on the discovery, development and commercialization of innovative medicines. More information at www.glpg.com.

Forward-looking statements

This release may contain forward-looking statements, including, among other things, statements regarding the mechanism of action and profile of, and timing and results of clinical trials with, and potential commercialization of, any compounds coming out of the inlicensed program, as well as statements regarding potential future milestone and royalty payments. Galapagos cautions the reader that forward-looking statements are not guarantees of future performance. Forward-looking statements involve known and unknown risks, uncertainties and other factors which might cause the actual results, financial condition and liquidity, performance or achievements of Galapagos, or industry results, to be materially different from any historic or future results, financial conditions and liquidity, performance or achievements expressed or implied by such forward-looking statements. In addition, even if Galapagos' results, performance, financial condition and liquidity, and the development of the industry in which it operates are consistent with such forward-looking statements, they may not be predictive of results or developments in future periods. Among the factors that may result in differences are that Galapagos' expectations regarding the further development of the inlicensed program, including its potential to address a large unmet need in fibrosis for the benefit of fibrosis sufferers everywhere, may be incorrect, the inherent uncertainties associated with competitive developments, clinical trial and product development activities and regulatory approval requirements (including that data from research and development programs may not support further development of the compound(s) due to safety, efficacy or other reasons), Galapagos' reliance on collaborations with third parties and estimating the commercial potential of Galapagos' product candidates. A further list and description of these risks, uncertainties and other risks can be found in Galapagos' Securities and Exchange Commission (SEC) filings and reports, including in Galapagos' most recent annual report on Form 20-F filed with the SEC and other filings and reports filed by Galapagos with the SEC. Given these uncertainties, the reader is advised not to place any undue reliance on such forward-looking statements. These forward-looking statements speak only as of the date of publication of this document. Galapagos expressly disclaims any obligation to update any such forward-looking statements in this document to reflect any change in its expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based or that may affect the likelihood that actual results will differ from those set forth in the forward-looking statements, unless specifically required by law or regulation.
