Pursuant to the rules of the warrant exercise program of Galapagos' Executive Committee adopted in 2013, Executive Committee members automatically are committed to exercise a minimum number of warrants, subject to certain conditions. In accordance with Belgian transparency legislation^[1], Galapagos notes that its total share capital currently amounts to € 211,388,857.22; the total number of securities conferring voting rights is 39,076,342, which is also the total number of voting rights (the "denominator"), and all securities conferring voting rights and all voting rights are of the same category. The total number of rights (warrants) to subscribe to not yet issued securities conferring voting rights is 2,805,692, which equals the total number of voting rights that may result from the exercise of these warrants. Galapagos does not have any convertible bonds or shares without voting rights outstanding.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors which might cause the actual results, financial condition and liquidity, performance or achievements of Galapagos, or industry results, to be materially different from any historic or future results, financial conditions and liquidity, performance or achievements expressed or implied by such forward-looking statements.
